

50pick

Testing runbook

START

1. Open /admin/payments.
2. Under PAYMENT PROVIDER, click SELCOM.

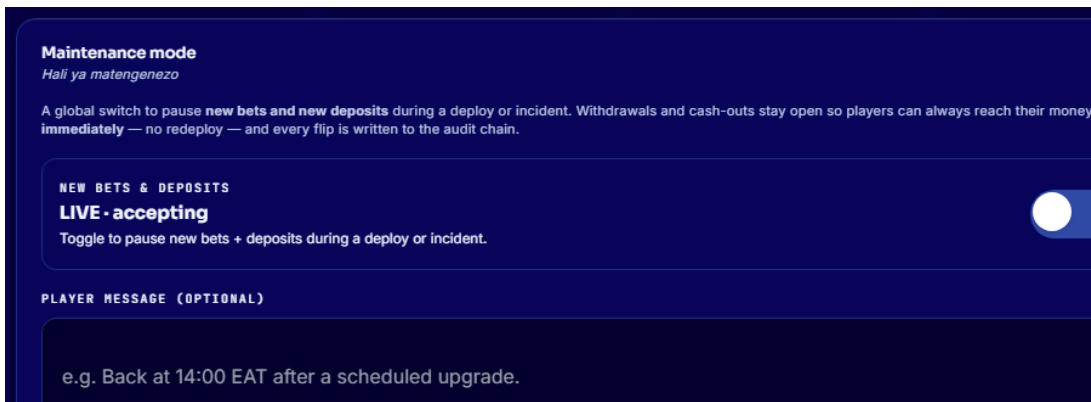

3. Done. Live immediately.
-

PAUSE OR STOP

1. Open /admin/system. Turn Maintenance mode ON.

New bets and new deposits stop immediately. Withdrawals stay open so nobody's money is trapped.

2. Open /admin/settlement and wait until it is empty.

Leave the payment provider on SELCOM.

Maintenance mode already blocks deposits. If you switch it back to MOCK, deposits stay dead even after Maintenance is turned off, and the site looks healthy while every deposit is refused.

RESTART

1. Open /admin/system. Turn Maintenance mode OFF.
-

CHECK DAILY

/admin/system -> Bet queue card. The TURNED AWAY number must stay 0.
If it is above 0, players were refused because the platform was busy. Report it.

DURING TESTING

Deposits and betting work. Cash-out is closed.
