

50pick

Testing runbook

START

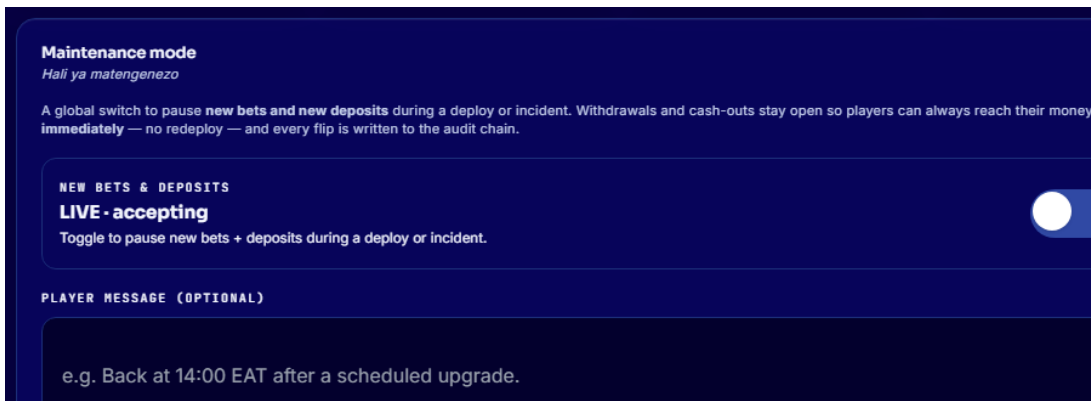

1. Open /admin/payments.
2. Under PAYMENT PROVIDER, click SELCOM.

3. Done. It is live immediately.
-

STOP

1. Open /admin/system.
2. Turn Maintenance mode ON. New bets and new deposits stop immediately.

3. Open /admin/settlement and wait until it is empty.
4. Open /admin/payments and click MOCK (TEST).

Do step 3 before step 4. Switching to MOCK while markets are live leaves people betting with no way to top up.

Withdrawals stay open in Maintenance mode, so nobody's money is trapped.

CHECK DAILY

/admin/system -> Bet queue card. The TURNED AWAY number must stay 0. If it is above 0, players were refused because the platform was busy. Report it.

DURING TESTING

Deposits and betting work. Cash-out is closed.
