How to use 50pick.

A short, screenshot-led walk-through of every screen you'll touch as a player. Sign up. Place a bet. See your wallet. Take a break when you need to.

SECTION 1

Sign up & verify

A screenshot of the 50pick mobile application's sign-up screen. The header shows the 50pick logo and navigation links: MARKETS, LIVE, POSITIONS, BALLET, TOP. The main content area is titled 'CREATE ACCOUNT' and 'WELCOME TO 50pick'. It includes a welcome message in Swahili, a phone number field with a dropdown for country code (+255) and a text input for the number (712 345 678), a date of birth field (mm/dd/yyyy), and a checkbox for 'I agree to the Terms and Privacy Policy'. A strength meter is visible below the password field. The bottom of the screen shows a navigation bar with a home icon and a user profile icon.

SIGN-UP

Tick & submit

Confirm you're 18+ and accept the **Terms + Privacy** notice. The third box (product updates) is optional.

The strength meter under the password field shows when it's **Strong · Imara**. Common passwords are refused server-side.

A screenshot of the 50pick mobile application's account creation confirmation screen. The header is the same as the sign-up screen. The main content area is titled 'STEPS' and shows a progress bar. It includes a 'CONFIRM PASSWORD' field, a checkbox for 'I confirm I am 18 or older', a checkbox for 'I accept the Terms and Privacy Policy', and a checkbox for 'Send me product updates (optional)'. A 'Create account' button is at the bottom. The bottom of the screen shows a navigation bar with a home icon and a user profile icon.

FORM READY TO SUBMIT

A screenshot of the 50pick mobile application's identity verification screen. The header shows the 50pick logo and navigation links. The main content area is titled 'IDENTITY VERIFICATION' and 'Verify your NIDA - Thibitisha NIDA'. It includes a progress bar, a 'NIDA' field, a 'Documents' field, and a 'Review' field. A 'Step 1: NIDA verification' section shows a 'NIDA NUMBER' field and a 'FULL NAME' field. The bottom of the screen shows a navigation bar with a home icon and a user profile icon.

VERIFY IDENTITY

Verify your identity

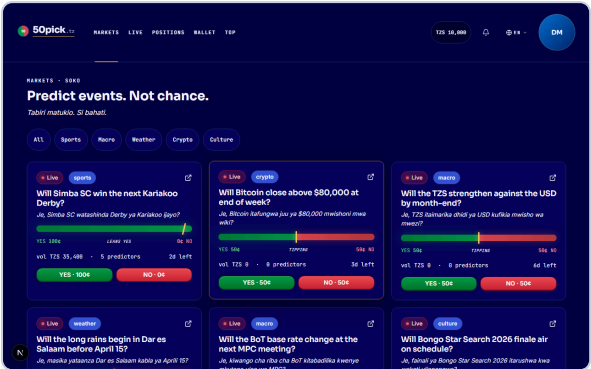

After **Create account**, you land on the verify-identity screen. NIDA national-ID + a selfie. Reviewed within hours.

You can browse and place bets immediately, but withdrawals only unlock after KYC is approved.

Stay safe. Never share your password — not with support, friends, or family. If you forget it, use the **Forgot password** link on the sign-in page.

SECTION 2

Browse markets & place a bet

MARKETS

Find a question

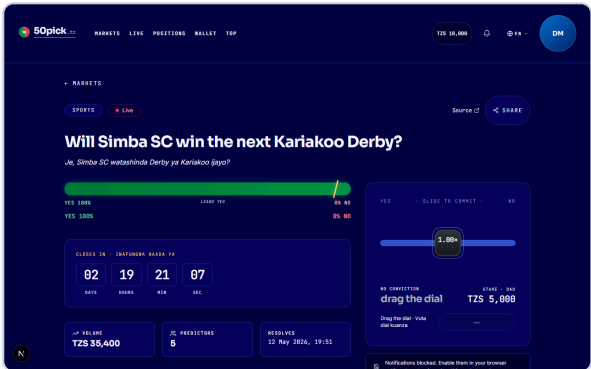

Markets are real-world questions with a **YES** or **NO** answer — football, weather, macro, crypto, culture. The bar shows where the pool is leaning.

- Filter by category at the top.
- Green = YES, red = NO.
- Markets near 50/50 are "tipping" — the most contested.

The conviction dial

Drag right for **YES**, left for **NO**. The further you push, the bigger your stake. Projection updates live.

Tap **Place bet**. A confirmation pops up with a 5-second locked-in price. Tap **Confirm** to submit.

MARKET DETAIL

Quote-hold. The 5-second timer means the price you see at confirmation is the price you get. Wait too long and the modal closes so you can re-aim — no surprise stakes.

How payouts work

When the market resolves, every losing stake flows into the pool. Winners share that pool in proportion to their own stakes. The platform takes a transparent fixed margin off the resolved volume — shown on every payout. *Hakuna utata wa bei iliyofichwa.*

Three things to remember

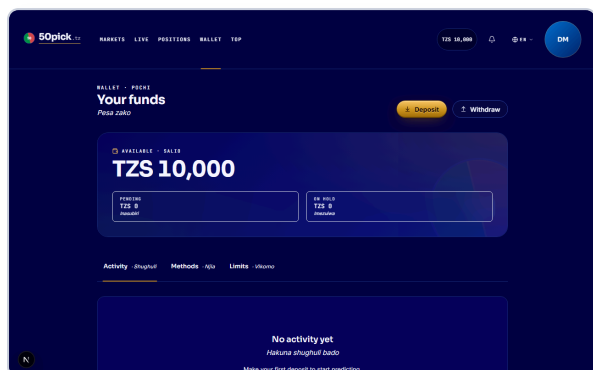

- **The bigger you push the dial, the bigger your projected return — and your loss.** The number is real money.
- **You can change your mind right up to the market close.** A second bet on the same side adds to your position; the opposite side reduces it.
- **The pool is the truth.** If everyone bets the same way, the pool grows but each winner's share shrinks.

What you'll never see

- **A surprise charge.** Confirmation always happens before money moves.
- **Hidden margin.** The platform's cut is shown on every resolved bet.
- **Auto-reload.** No deposit happens without you tapping a button.

SECTION 3

Track your money

WALLET

Wallet

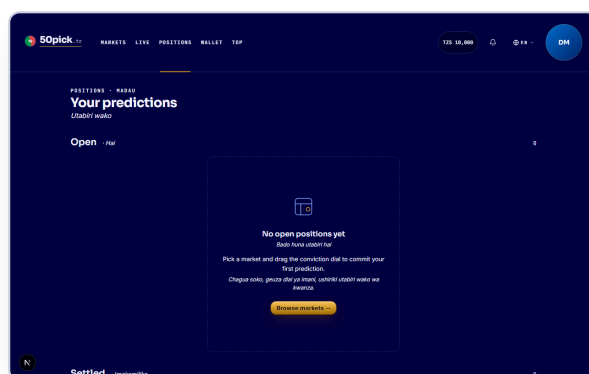

Balance, deposits, withdrawals. The **TZS pill** in the top bar (next to your avatar) is the same number — tap it any time.

Withdrawals require KYC approval. The AML notice appears on transactions over the threshold.

Positions

Open bets and resolved bets, in one list. Each card shows the market, your side (YES or NO), the stake, and the projected payout if you win.

You'll get an inbox notification when a market resolves — clicking it takes you straight to the position.

POSITIONS

Deposits & withdrawals

Deposits via mobile money settle to your wallet within seconds. Withdrawals require a verified KYC and run through a short integrity check before payout. Large transfers may be paused for a brief AML review — you'll see a notice in the wallet, and the funds remain visible the whole time.

Notifications you'll get

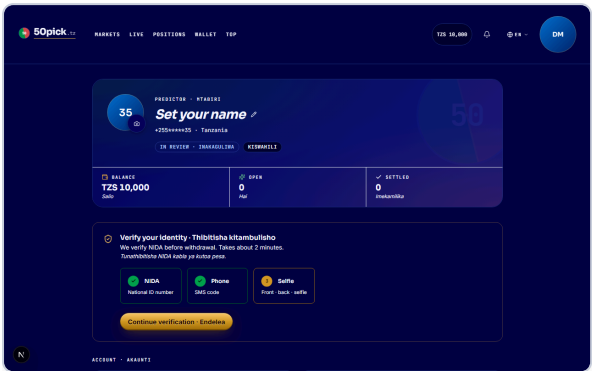

- **Bet placed.** A receipt with the market, side, and stake.
- **Market resolved · win.** Tap to see the breakdown and payout.
- **Market resolved · loss.** Tap to see the resolution and your share of the pool.
- **Deposit / withdrawal.** A receipt the moment money moves.

Reading a resolved bet

Each resolved card shows the official outcome, the side you took, your stake, the platform margin, and the payout (or loss). The numbers add up — every line is shown.

Profile

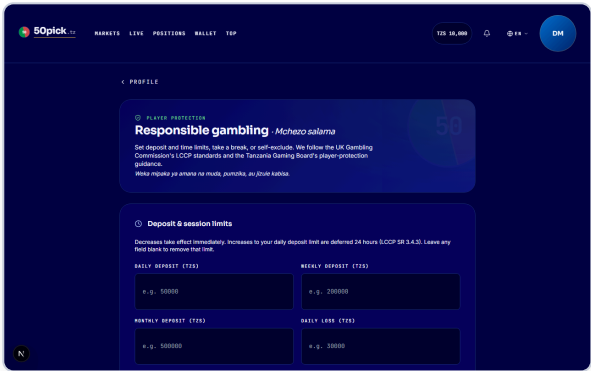

Display name, KYC status, language, region, the limits you've set on yourself, your active sessions.

Sign out from the avatar menu in the top-right — a confirmation dialog ensures a misclick doesn't sign you out mid-flow.

Responsible gambling

Set deposit limits (daily / weekly / monthly), session limits, take a break (1 h / 24 h / 1 wk), or self-exclude (24 h through permanent).

Self-exclusion cannot be reversed by you until the period ends. That's the whole point.
